

AutoHire™

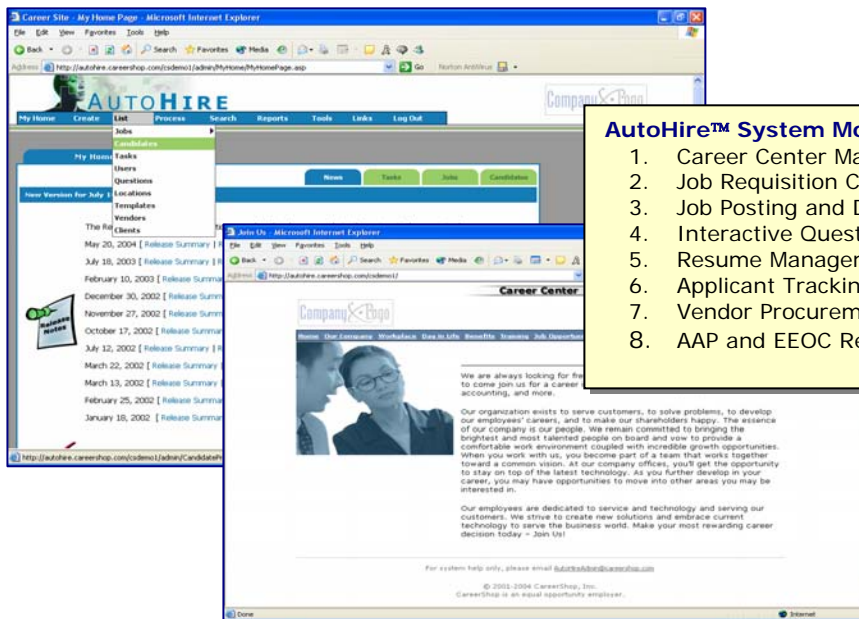

Career Center Manager and Applicant Tracking System

AutoHire™ (also known as “Ingenti-hire”) is a totally web-based “hiring desktop” system integrating 8 major sub-systems including career center management, online screening, resume management, and applicant tracking. Use it to post jobs to your website and other sites and receive resumes online. Its online interactive question system will help you screen and rank applicants so you can focus your selection efforts. Automated emails manage workflow and help to reduce manual tasks. AutoHire™ also includes free job distribution to Americas Job Bank, Monster.com, and other job boards.

It will save your staff time and reduce your cost of recruiting and developing information for Title VII, EEOC and OFCCP compliance. AutoHire is a hosted system so there is nothing to install.

This is the same system used by Fortune 500 and global organizations as well as many small to mid-sized companies.

Over 3,000 recruiters use AutoHire (Ingenti-hire):

AutoHire™ System Modules:

1. Career Center Manager (Internal & External)
2. Job Requisition Creation and Approval System
3. Job Posting and Distribution (Marketing) System
4. Interactive Question, Screening, and Ranking System
